III. Reasons for not making omnibus objection

I was a teacher for 31 ½ [years] of my life, during which I had to use my own money to fix and decorate the room for the kids. I gave it all for [these] kids.

That money which you want to take away from me was not a gift from the government.

That money is mine; I earned it with a lot of effort. And it is not fair that when I am most in need, you want to take it away from me. I live off my pension, not from Social Security, since teachers did not pay for Social Security.

I presently have a health condition, atrial fibrillation, the medication for which costs me \$200.00 in monthly copay just for that medication.

Gentlemen, I need quality of life!

I will appreciate your collaboration with me.

God bless you!
